

Class 4 – Summer 2

This term our topic is ‘We are the Champions’ and class 4 are learning specifically about the different sports that link to a national or worldwide sporting event. Our sports are, swimming, rowing, athletics, football, tennis and cycling.

In school we are focussing on:

- **Literacy** – We are learning to follow simple instructions about actions using signs, language or picture.
- **Maths** – We are learning about size and shape and noticing the different between the size of two similar sporting objects
- **PE** – We are learning simple skills from each of our sporting events. We even have Bradford City football club in to teach us some new football skills.

At home you could focus on:

- Asking your child to follow simple movement instructions e.g. Can you jump? Can you skip?
- Try new sporting activities e.g. kicking, throwing, rolling and bouncing different sized balls.
- Watch different sports events together with your child and point out key objects
